THE FREE COINAGE ISSUE.

The action of the Committee on Coinage, Weights and Measures of the House of Representatives in reporting adversely the Senate bill for the free coinage of silver disposes of the measure for this session of Congress. This report can scarcely be a surprise to the public. Asst. Sec. Reed knew his men when he made up the committee. It is composed of thirteen members, seven of whom are Republicans and six Democrats. One of the latter, Joseph of New Mexico, being from a Territory has no vote, and was doubtless put on the Committee to make the parties appear more evenly represented. The other Democrats, with the exception of Bland of Missouri and Williams of Illinois, were known to be the most pronounced goldbugs in the Democratic ranks and were among the seven Democrats who voted against free coinage February 7th in the House.

The next House of Representatives which is to convene in regular session next December and May, if the President so decrees, will be composed of 236 Democrats, 87 Republicans and 8 Farmers' Alliance. It is expected that one of its first acts will be a bill for the free and unlimited coinage of silver, and that the President will veto the bill. Should such prove to be the fact and Congress fails to pass the bill over the veto, the silver question will be the foremost issue in the next Presidential campaign and a new alignment of parties will be among the probabilities. The Democrats, as a party, are pledged to restore silver to its old standard, and the few members of that party who oppose it must fall into line with the majority or join the Republicans, while those of the latter who favor free coinage will doubtless unite with the Democrats.

Cleveland's letter to the Cooper Institute meeting against silver places him out of the list of possible candidates for President next year, unless the silver question is settled at the first session of the next Congress, and he accepts the views of his party, and even that would not make him a popular candidate as the silver men would not have implicit confidence in him.

WASHINGTON'S BIRTHDAY.

To-day is the 159th anniversary of the birth of the immortal Washington, who was born in West Moreland county, Virginia, February 22d, (February 11, old style) 1732. The day is generally celebrated wherever the stars and stripes float, but as it falls on Sunday this year it will be observed to-morrow. Salutes will be fired at military posts, and postoffices will be closed in the principal cities the greater part of the day.

In Nevada, the Lower House of the Legislature, which desires the people to understand that it is patriotic if it does not canvass the vote for a Constitutional Convention or comply with the will of the majority by calling such a Convention, adjourned last Friday until next Tuesday as a mark of respect to the memory of the man who was "first in war, first in peace and first in the heart of his fellow citizens," while the Senate, which is not so enthusiastically patriotic as the House, was in session yesterday, and will meet again to-morrow.

The President has nominated for Secretary of the Treasury ex-Governor Foster of Ohio, who is said to be in accord with his financial policy. As there is no question about his confirmation by the Senate, men of all parties conceding that the President has a right to select his advisers, Foster, notwithstanding his denial, will be the successor of Secretary Windom.

Friends of the President say no matter what silver legislation should be enacted between now and the 4th of March, it will receive a pocket veto, and as the ten days' limit will not have expired before Congress is forced to adjourn, no action, of course, can be taken by that body on the question.

Senate Proceedings.

Special to the Journal.

WASHINGTON, February 21st.—The Sunday Civil Appropriation bill was reported. The Nicaragua Canal bill was taken up and Morgan addressed the Senate in defense of the bill. Commenting on Vest's references to the Clayton-Bulwer treaty, he asked whether the Senator's were to take off their hats to Queen Victoria and say "by leave of your Majesty." That, he said, was not an American view of the question. No move has ever been made in the Senate in the direction which the bill aimed, that had not been met by somebody with the threat of the Clayton-Bulwer treaty. He was tired of it. The subsidy argument was totally irrelevant because the United States would never have to pay one dollar of it.

Vest said that when the Farmers' Alliance was demanding legislation considered visionary it would never do to refuse that legislation and at the same time guarantee an hundred millions of bonds of the company organized in New York to be spent on foreign territory and in the employment of Jamaican negroes, "Dagoes," Indians and Chinamen.

Turpie spoke against the bill, declaring himself against any subsidy scheme. Stewart's amendment providing that the chief of engineers of the army shall have supervision and control of the canal was disagreed to, 25 to 25. The bill then went over without action. The conference report on the Navy Appropriation bill was agreed to and the Senate adjourned.

Stormy Debate in the House—Senate Proceedings—Floods in Arizona, Railroad Bridges and Farm Houses Swept Away.

Floods in Arizona.

Special to the Journal.

TEMPE, A. T., February 21.—A Chronicle special from Arizona Territory, says the Salt river valley has just been visited by the greatest flood ever experienced there.

The storm, so general throughout the country, swept over Arizona in a deluge of rain, raising mountain streams to torrents, and rivers above the flood point. Thursday morning early, the river at the head of the Arizona canal, 28 miles above Phoenix, was 17 feet above the ordinary stage.

At Tempe, the railroad bridge of the Maricopa and Phoenix railroad was entirely swept away, destroying rail connection to the capital of Arizona. Below Tempe the river ran over high banks on the north side and a large stream flowed towards Phoenix cutting out the railroad track and immersing a number of farms. Several farm houses floated away, the majority being built of adobe were undermined by the water and fell before the occupants could save their effects. The northern edge of the flood which was about a mile wide and 3 feet deep, entered the lower part of the city of Phoenix, flooding out many of the poorer classes. The electric light works were flooded and the town left in comparative darkness. The water did not penetrate to the business portion, it being on high ground. Measures for relief were prompt. Churches and public buildings were thrown open to the shelterless.

The river began falling Friday afternoon, and has now reached its normal point. The loss will not fall short of \$135,000 in the valley, over one-third of which will be the loss to the railroad company. Five miles of the track and a bridge being washed away and telegraphic communication is out of it. The first boat crossed the river this morning and the ferry will be soon running. The telegraph wire is now being stretched across the river and will be working by to-morrow.

Five Pima Indians living near Lehi, 20 miles east of Phoenix, are the only ones known to be drowned, but a man and family living on the island north of the Phoenix foot road, perished also.

YUMA, February 21.—The weather is stormy, and the track twenty miles east of Yuma is under water. The Colorado and Gila rivers are rapidly rising at Yuma, and the danger of disaster is inundation.

HOLBROOK, February 21. A disastrous flood is prevailing here. The Little Colorado is very high, overflowing its banks in places and changing its channel. The railroad is washed out in several places, causing the track to be moved and the trains are delayed.

All the streams south of here are unfordable. The stages are unable to make their trips and mails are accumulating here for points south. The Gila river is higher than ever known to be. The San Carlos telegraph line is in the river and communication is cut off from the south. The flood at Globe City has destroyed several dwelling houses. Wm. Middleton, an old and much respected resident of Globe City, was drowned in Pinal creek, which flows through town.

Coal Mine Explosion.

SPRING HILL, N. S., February 21.—An explosion occurred in the east slope of the coal mines this afternoon. Already five dead bodies have been taken out. A rescuing party is now putting up brattice for the purpose of restoring ventilation in the mine. It is feared that many more are killed, but the rescuers will not be able to get near the imprisoned men until some of the pile of debris, caused by the fall of the roof, is cleared away. Thirty men and boys are still in the mine. Some of the men have been taken out badly injured and report that many horses were killed. To add to the horror of the situation the deadly black damp has made its appearance in the mine.

Crops Assured in California.

Special to the Journal.

SAN FRANCISCO, February 21. A general rain has fallen all over the State during the day with the prospects of continuing all night. As far as reported the rain has done no damage and farmers are now assured of plentiful crops. Heavy snows in the mountains will also be of great benefit to the miners.

The Final Obsequies.

Special to the Journal.

ST. LOUIS, February 21.—The funeral train arrived at just half past 8 A. M. As it crossed the bridge a salute from the battery announced its approach. Emerging from the tunnel the train was compelled to proceed slowly, while the police cleared the track of people. When the train reached the platform, Governor Francis who was there with his staff and members of the committee, paid his respects to General Schofield and Howard and other military officers accompanying the funeral party. After an exchange of greetings it was announced that everything was in readiness for the funeral procession.

The route of the procession was from the depot to Calvary Cemetery, a distance of nearly eight miles, through some of the principal streets and avenues of St. Louis. The windows of nearly all the buildings were filled with spectators, and the sidewalks were crowded with a struggling mass of humanity. The entrance to the cemetery was by the rear gate. The larger part of the military remained outside the cemetery.

The services at the grave were of a military character, the only exception being the reading of a prayer by Rev. Thomas Sherman, son of the deceased General. Thousands of people were present at the ceremony.

At 3 o'clock the closing of the grave was completed and the buglers of the Seventh Cavalry sounded the taps "lights out." Volleys were fired over the grave by the Thirtieth Infantry and immediately followed by three volleys by the artillery, which was stationed some distance to the east. Wreaths and branches of evergreens were placed upon the grave by loving hands.

The Majority Report.

Special to the Journal.

WASHINGTON, February 21.—The adverse report of the majority of the House Coinage Committee on the Senate Free Coinage bill says, in part: Under the present act \$54,000,000 annually are being added to the volume of the currency of the country in the form of Treasury notes for bullion purchased. This largely exceeds the contraction in way of the retirement of bank notes, and in ten years would, at the same rate, gradually add to the volume of currency above the amount of bank notes, should they be all retired, \$360,000,000.

The Secretary of the Treasury states that the amount of the surplus of silver in the world above the amount used in arts and coinage in all other countries than the United States was for 1888, thirty-nine million five hundred ounces. If this estimate is correct, under the present law, there is provision for using the world's surplus which is all that unlimited coinage could accomplish. It is said, however, that there are now "bearings" on the market fifteen million ounces which are sufficient to keep down the price of silver. If these 15,000,000 ounces remain on the market it will be easy at any future time for Congress to provide for its absorption into the volume of currency. Treasury notes issued under the present law are legal tender. This is the highest function that could be given silver under free coinage, so that, under the existing law, we have provision for the use of all the silver that would be brought to the Mint under free coinage. The present law at the time of its passage was declared by many ardent supporters of free coinage, to be satisfactory. The conditions are substantially the same as then. It is not now evident to the committee wherein it has failed nor wherein it is likely in future to fail.

Cardinal McKinley Gets the Floor.

Special to the Journal.

WASHINGTON, February 21.—In the House this morning there was a stormy time over the approval of the journal. Flithin and Springer insisted on having it read in full. Several Southern Democrats protested vigorously against the action of the Speaker in counting them to make a quorum yesterday. Turner, of Georgia, said he had voted for the yeas and nays and then left the house in as dignified a manner as possible. McKinley got the floor and would not yield to any of the Democrats and a tremendous uproar ensued, in the midst of which Spinoza, placing a strip of paper on his shoulder, threateningly turned that shoulder toward the Republican side until Speaker pro tem, Payson called him to order. Finally the journal was approved and the Senate bill fixing the salaries of the United States District Judges was taken up.

The Weather.

Special to the Journal.

SAN FRANCISCO, February 21.—Forecast of the weather until 8 P. M. Sunday, for Nevada and Northern California; rain turning to snow in the mountains; cooler at Koeler and in Western Nevada. The following rain fall is reported during the past 24 hours: Red Bluff 0.70, Winnemucca 0.02, Sacramento 0.20, Carson City trace, Fresno 0.12, San Francisco 0.46, Los Angeles 0.24.

Not the Men Wanted.

Special to the Journal.

NAPA, February 21.—Sheriff McKenzie received pictures to-day of the men arrested at Delano and Mendocino, suspected of the murder of Mrs. Greenwood, but as usual, they proved not to be the men wanted.

Honor to the Dead General.

Special to the Journal.

SAN FRANCISCO, February 21.—Many wholesale houses closed this afternoon in honor to General Sherman. Monday will be generally observed by down-town merchants as Washington's Birthday.

Foster Officially Notified of His Appointment.

Special to the Journal.

NEW YORK, February 21.—Ex-Governor Foster was officially notified of his appointment as Secretary of the Treasury by dispatch this afternoon from President Harrison. When asked for his views on the financial question he said to a reporter: "I am in accord with the President and his party and my policy will be the same as Windom's as far as I can see now. I am in accord further with the President and his party in their efforts to increase the trade of the country through the reciprocity treaties. I am a firm protectionist and a strong advocate of restoration of our foreign shipping interests."

PLUMED KNIGHTS.

The K. of P. Uniformed Ball at Wadsworth.

WADSWORTH, February 20, 1891.

Musio Hall presented a gay appearance last night when the assembled Knights with their ladies began the grand march at 9 o'clock. The evolutions performed by the forty Knights in uniform pleased every onlooker, and the tasteful decorations, making Musio Hall appear as it never did before, called forth many a complimentary remark. The committees on decoration and the ladies who assisted them certainly merit praise. Festoons of evergreens and flowers hung in graceful curves from ceiling chandeliers and stage, while on the walls banners and mottoes, emblematic of the order, in bright colors bordered and wreathed in evergreen, were placed.

Notwithstanding that this is the Lenten season, the ballroom could not have well accommodated a larger gathering. The magic of the occasion, together with the excellent music by Fredrick's orchestra, put everybody in a mood for dancing and everybody danced from the gray haired patriarch in "abbreviated uniform" who had not been on the floor for many years to the budding youth in his teens.

At 12 o'clock the music ceased for a time and all repaired to the Wadsworth House for refreshments. Here was spread a supper which merited the praise it received from those who partook. The host and hostess of the Wadsworth House know how to entertain guests and they did it. After this sumptuous feast dancing was renewed and ceased only as the clock struck four in the morning.

All expressed themselves as being well pleased and the second ball given by the newly instituted "Pyramid Lodge No. 19," was declared a grand social and financial success.

The Koch Lymph and Typhoid Fever.

A comparison of the natural course of typhoid fever with the process of cure of lupus, as described by Koch, shows many striking points of resemblance. The lupus extends because the tissue in which the tubercle bacilli are developed is not sharply limited, as in the case of the intestinal glands. The poison generated by the tubercle bacilli in lupus is not taken in quantity into the blood, and there is no elevation in body heat, or reaction, such as occurs in pulmonary tuberculosis. Heretofore the disease has frequently been cured by removing the diseased tissues or by destroying the bacilli by external applications. Following the injection there is a strong constitutional reaction, and the affected parts apparently become inflamed, as do the affected parts in the early stages of typhoid fever. The diseased tissue then becomes "brownish and necrotic." This also occurs in typhoid fever. The necrotic tissue is then thrown off, leaving a healthy ulcer which promptly heals. The same process takes place in typhoid fever. Dr. Austin Flint in Forum.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which one hundred doses can be had for one dollar. Medicines in larger and smaller bottles require large doses, and do not produce as good results as Hood's Sarsaparilla in its medicinal merits. Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered."

Peculiar in its "good name at home"—there is now more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad, has never attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly.

Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine.

As a result of the controversy between the South Omaha Live Stock Exchange and the cattlemen of the West relative to the commission to be charged for selling live stock, all the packing house managers of Omaha have withdrawn from the exchange, which means the complete demoralization of the commission men, and the success of the cattle men backed by the Farmers' Alliance.

A CHANCE FOR BETTING MEN.

An Opportunity For Senators to Decide a Question.

The Carson Appeal says: "The refusal of the Senate to send for the Lyon county ballots sounded the death knell of the Constitutional Convention."

There was no pretence even of a defence of this course. The Joint Committee reported that Lyon county cast 516 votes for "a change of Constitution." The Appeal will bet any member of the Joint Committee \$100 that Lyon county did nothing of the kind. It cast 516 votes fair and square "for a Constitutional convention."

The Appeal will bet any member of the Legislature, or each and every member of the Legislature, \$100 even that the Lyon county ballots were printed "For a Constitutional Convention."

Any one calling at this office during business hours can bet one dollar and upwards on this proposition. The members of the Senate who voted against sending for the proof i. e., the ballots of Lyon county, know that they were beaten the instant the proof arrived.

Two Brothers Die at Candelaria.

The Hawthorne Bulletin of the 18th inst. says: Last Wednesday Dr. Lee of Carson was summoned to attend the Goodwin brothers. The doctor remained one night, believing that he had done all that was possible. For a few days the patients both improved, and the news of their death was a shock to their many friends in Hawthorne. Ralph died last Monday and Joe last night. Esmeralda thus loses two of its most worthy young men who were universally respected. They were natives of Wisconsin, but have lived many years in Nevada, and aged respectively 28 and 30 years. Their remains will be shipped to Wisconsin for interment.

A general storm prevailed through California and Nevada last night. About 4 P. The storm which was central in British Columbia and Washington two days ago continued south.

PETERSON BROTHERS, PROPRIETORS.

STEWART AMONG THE GOLD BUGS.

He Delivers an Able Silver Speech in Boston.

The Boston Globe, of February 14, devotes three columns to the silver speeches delivered by Senator Stewart, of Nevada, and ex-Congressman Warner, of Ohio, in Faneuil Hall, the evening previous, to a large, and strange to say, sympathetic audience. Colonel S. W. Nickerson presided and there were over thirty vice presidents on the platform.

POINTS FROM STEWART'S SPEECH.

Senator Stewart was greeted with cheers when introduced. He said he came to plead the cause of the people against their oppressors. His speech is published in full in the Globe and the following are a few of the points which he made:

"They tell you I am a silver monopolist. I own no silver mines and have no interests in silver mines. I own no silver bullion."

"If you want to enslave a man first make him poor."

"The civilization of the 19th century began with the stream of gold from the new world."

"The parity of gold and silver has never been changed except by legislation."

"Concentrated capital, the bankers, the press, control the Eastern opinion on silver."

"The banker is the galley slave of finance and dare not say what he thinks."

"Why are men starving when crops are good the world over? Why do your bankers stand trembling if gold is solvent? You've got all the gold!"

"No Act regarding finance has passed Congress in 25 years in which there wasn't a job."

"Baring Brothers, of London, couldn't get legal tender when demanded by Russia. You know the results."

"To say that the silver dollar is worth only 83 cents is false. The only accumulation of silver bullion in the world not over \$30,000,000, is right in New York, held there to affect legislation. Outside of that every 41 2/3 grains in the world is worth \$1."

"Right this thing at the ballot box. Don't vote for a gold standard contractionist under any circumstances. (cheers.)"

"I expect to hear from New England a voice that will make the money powers tremble."

GENERAL WARNER INTRODUCED.

President Nickerson next introduced ex-Congressman Warner, who was warmly received.

General Warner's opening shot was that he had heard there wasn't a free-silver coinage man in Boston. Looking at the audience and hearing their cheers, he thought he must be mistaken—he must be somewhere else not in Boston.

Then he described an increasing population demanding more and money; said that gold was decreasing in production; that 85 per cent. of it was now used in the arts, and if we all had our teeth filled there wouldn't be any left for money.

Laughter loud and long greeted the remark that Edward Atkinson was distinguished for knowing more things that aren't so than any other man living.

Then a dig at Professor Taussig of Harvard and other "wild guessing teachers of economics."

Resolutions in favor of the remonetization of silver were passed, also resolutions asking Hon. John F. Andrews to explain his vote on silver in Congress, and Hon. Joseph H. O'Neill to explain why he didn't vote. Full reports of speeches follow.

Novel Colonization Concession.
A somewhat novel colonization scheme is in the hands of Gen. Herman Sturm. The concession provides that Mr. Sturm shall establish four colonies in different parts of the country, the government obliging itself to sell him for the purpose 250,000 hectares of surveyed public land in the states of Durango, Coahuila, Chihuahua, Oaxaca and Michoacan. The first colony, consisting of 200 persons of either sex, must be established within three years from the date of the promulgation of the concession. The colonists are to be selected preferably from among the residents of Mexican descent in the American states of California and Colorado, and the territories of New Mexico and Arizona.

The colonists will engage in stock raising (to which end the free importation of a limited number of head of stock for breeding purposes will be allowed), in the manufacture of barrels and coopers' goods generally, of beer, spirits and perfumery. But the most important feature of the scheme is the erection of a paper mill in the federal district and the agreement of the concessionaire to sell the paper manufactured there at a maximum price of \$3.50 for common triple printing paper, \$3.50 for superior printing paper suitable for books, and \$10 for glazed paper. Another feature is the project for putting up a vegetable, fruit and fish canning establishment.—Mexican Financier.

Minister Daggett and Kalakaua.
Mr. Daggett bore himself in his official residence at Hawaii as if it had been his editorial room in Virginia City. I saw Mr. Daggett the other day. He had come down from his ranch at Vacaville to visit his former royal chum. Agriculturalist and diplomat. He used to be fat, but now he looks like a pugilist in training.

"Everybody," he said, "seems to be shocked at my leanness, just as you are. Judge Mesick was quite scared this morning. 'Daggett,' says he, 'it isn't natural for you to be without jaws and a paunch. It ain't exercise, but disease that's the matter with you. See a doctor. You're dying.'"

"Dying," says I, "I'm as strong as an ox. Let me show you. Give me something to raise—an anvil or anything," and I bared my arm. "Just let me raise something for you."

"All right," says Mesick, "go out and see if you can raise me \$5,000." I am told that when Mr. Daggett sent in his card to King Kalakaua at the Palace hotel, his majesty turned to Lord Chamberlain McFarlane, and said with a gesture of high command:

"Let him be admitted, and the draw-bridge raised. Drop also the portcullis. We are at home to none else today."—Virginia (Nev.) Cor. San Francisco Chronicle.

A Hunter's Paradise.
In this unknown land, bear, elk and the noble black tailed deer exist in almost countless numbers, and in all but perfect fearlessness of man and here, from the great difficulty of access to their domain, the enterprising sportsman may find them ages hence. Until the summer just passed no hunter's prospect or explorer's rifle had ever awakened the echoes of their hills. This hunter's paradise is the peninsula lying west of Puget sound, and embraces all the territory west from thousand to the Pacific ocean, and the Straits of San Juan de Fuca south to the northern line of Chehalis county, comprising the entire counties of Chatham and Jefferson, and is locally known as the "Olympic range country." A glance at a map will best inform the reader of the extent of this territory, where, until last summer, the noblest game on the continent has lived in undisturbed peace.—Tacoma (Wash.) Letter.

Can Such Things Be?
There is such a thing as carrying economy even beyond the borders of parsimony. Here is a case we vouch for as actually occurring, we will not say where. Three years ago a certain person purchased as a Christmas gift for his 2-year-old daughter a little chair, painted red. In 1898 he had the chair painted blue and gave it to her as a brand new Christmas gift. Last year he had the same chair gilded, and worked it off again as a Christmas gift on his innocent and helpless child. In a very poor household such an incident would be pathetic. But this affair is by no means a poor man.—Buffalo Commercial.

Oranges in San Bernardino.
There are upward of 5,000,000 orange trees in seed bed in this county. This is over three times the number set out in orchard form in the county. But each year the demand for trees increases. At the present rate of increase two years from now 1,000,000 will be planted annually in this county alone. As many trees are shipped into San Diego and other counties, and if all the trees now in seed bed should mature to a condition for planting, there will be but little danger of an overstock. But many of these trees will be killed by frost and from neglect and other causes.—San Bernardino (Cal.) Times.

A Curious Accident.
Mrs. Eliza Foster, 59 years, of this city, fractured a rib Wednesday afternoon while trying on a pair of boots at a shoe store. As Mrs. Foster was pulling one of the boots on her foot a crack was heard, and she complained of great pain. She was taken to the Episcopal hospital, and her condition is somewhat serious. Hers is the forty-fifth case of the kind known to the medical profession.—Philadelphia Press.

In the general elections that have just been held in Italy nine Jewish members of the chamber of deputies have been returned. This is said to be the largest number that have ever sat in any parliament.

Of 700 boys and girls who drew books from the library of the College Settlement in Rivington street, New York, last year only two had American parents.
